

### Siegfried R&D Center Evionnaz

Siegfried, a leading global company in the Contract Development and Manufacturing Organization (CDMO) sector for the pharmaceutical industry, headquartered in Zofingen, has inaugurated its new global research and development center for active pharmaceutical ingredients at its site in Evionnaz. The 4,500 m<sup>2</sup> R&D center includes advanced chemical and analytical facilities, state-of-the-art laboratories, cutting-edge technologies such as flow chemistry, advanced distillation, and process analytics technologies, as well as new office spaces.

#### → Project:

- Size: 4,500 m<sup>2</sup>
- Number of Fume Hoods: 74
- Implementation Period: 2022–2024
- Client: Siegfried AG
- General Contractor: Implenia

"Thanks to Köttermann, we were able to execute the project efficiently and on schedule. From the initial planning to the final handover to the client, we were supported by an experienced team that consistently impressed with their high level of expertise."

Alexander Smith, Siegfried Evionnaz SA
